

March 26, 2020

To whom it may concern,

We hope this email finds you and your family in good spirits, healthy and safe.

Apex Training Solutions continues to monitor the evolution of the COVID-19 pandemic and remains committed to the safety and well-being of everyone we work with and you as a Third Party Provider.

As of March 20, 2020, Apex has recommended that all Third Party Providers suspend all classes. Due to the practical nature of the training (which cannot be altered even in these circumstances) and our health authority's strong message to practice social distancing, it is not safe to place instructors and students in situations where there is a high probability of transmission. We need to be part of the solution.

Apex Training Solutions is flexible concerning certification for its CPR and Healthcare Provider CPR courses.

Any certificate which expires March 15, 2020 or later will be granted an extended expiration date of August 31, 2020.

This date may be revised if the situation warrants.

Students who are unable to recertify their existing CPR/HCP-CPR training prior to existing certificate expiry will now be allowed to recertify prior to August 31, 2020.

We promise to communicate with our Third Party Providers once it is safe and practical to commence training again.

This is an unprecedented time – but it will pass. We will get through it, together as we do our part to flatten the curve on COVID-19.

Take care, and stay healthy.

Sincerely,

Al Joly
Director of Operations
